

**ARCOLA 1:1
INDIVIDUAL DIGITAL LEARNING PROGRAM
RIDING INNOVATION TO EXCELLENCE**

New Program To Make Arcola First In The State To Bring iPads And Digital Learning To All Students.

ARCOLA, IL- iPads and 1:1 digital learning are coming to K-12 students in Arcola. New efforts are underway that will make the Arcola School District the first in the state of Illinois to bring iPads and digital learning to students spanning kindergarten through high school.

*"Digital learning is the wave of the future and our tests prove it."
- Tim Monahan*

Three pilot programs launched in Arcola classrooms prove the combination of specialized education, trained teachers and access to digital learning technology make a significant impact on the lives and academic success of local children.

**Experience It
Working!**

*"School got so much better, and I like it now."
-Jimmy, 4th grade, Miss Wellbaum's class*

The pilot programs also prove that 1:1 digital individual learning programs are more successful than a shared smart tablet system among students. Which is why *all* Arcola students will soon have their own iPads and *all* teachers will have the necessary resources to maximize their impact.

"The 1:1 initiative in Arcola will not only ensure every student that graduates from Arcola High School will be prepared for their future, it will continue to build upon the impressive reputation of an incredible community supporting a growing, innovative school district."

- Tom Mulligan, Superintendent

Fundraising is now underway to raise \$500,000 to complete the program. This privately funded initiative will change the lives of these central Illinois students.

An Open House will be held Wednesday May 14th to showcase the program and encourage community support.

OPEN HOUSE DATE:

MAY 14, 2014, 5:30-7:30PM

Arcola School 351 W Washington Street Arcola

Video and interview opportunities available
